

OMAR KHATAB

Frontend Developer

React / Next.js / Material UI

Mechanical Engineer Background | Cairo | 01278358368 | omareessam0870@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Frontend Developer (25) — BSc Mechanical Power, Ain Shams (2019-2024), GPA 2.85. Building clean, fast, responsive UIs with React, Next.js, Material UI, Tailwind CSS, Framer Motion. Applying engineering problem-solving mindset — thermodynamics, fluid mechanics, analytical thinking, clean system design — to frontend development. Strong focus on responsive design, PSD to HTML conversion, modern UI/UX. Targeting frontend roles in software companies. Available immediately in Cairo. Strong fundamentals: 7 production landing pages with pure HTML5/CSS3/JS before React.

FRONTEND SKILLS

React.js | Next.js (App Router, Server Components) | Material UI (MUI) | JavaScript ES6+ | HTML5 / CSS3 | Tailwind CSS | Framer Motion | Context API / REST API | Git / GitHub / Vercel | Responsive Design | PSD to HTML | Clean Code | Problem Solving | BEM | Flexbox + Grid | Pixel-Perfect

FRONTEND PROJECTS — Live Demo & Code

E-Commerce Store — React [Featured] | [Live Demo](#) | [Code](#)

Full-featured e-commerce built with React, Context API for state management, Framer Motion for animations. Implemented cart, wishlist, categories, filtering & search, product details, responsive grid, checkout UI. Clean UI, fast performance, mobile-first, reusable components.

Admin Dashboard Panel — 8 Pages | [Live Demo](#) | [Code](#)

Complete admin dashboard with 8 pages: dashboard overview, projects management, courses, file manager, friends list, pricing plans, profile, settings. Features statistics cards, progress tracking, task management, file upload UI, filtering, data tables. Built with semantic HTML5, modern CSS3 (Flexbox, Grid), vanilla JavaScript.

SaaS Landing — Next.js | [Live Demo](#) | [Code](#)

Modern SaaS landing built with Next.js App Router, React 19. Features hero, features showcase, pricing, testimonials, FAQ, CTA sections. SEO-friendly, App Router routing, server components, responsive, smooth scroll animations.

Leon — Creative Agency Landing | [Live Demo](#) | [Code](#)

Creative agency landing — Converting PSD to fully responsive website with clean, semantic HTML5/CSS3/JS. Foundation for frontend journey.

Roots Before React — 7 Projects Fundamentals Showcase | [Live Demo](#) | [Code](#)

Before React & Next.js, mastered basics. 7 production landing pages with pure HTML5/CSS3/JS — no frameworks. Includes Leon, Kasper, Digital, Special Design, Classic Agency + Admin Dashboard + SaaS Landing Next.js. Each focuses on different skills: modern UI, advanced responsive, animations, final HTML/CSS mastery before React. Demonstrates growth, consistent practice of PSD to HTML, responsive design, clean code. All deployed on GitHub Pages. Proves strong fundamentals: Semantic HTML5, BEM, Flexbox + Grid, Responsive 320px→1920px.

BACKGROUND — MECHANICAL POWER ENGINEER

Education: BSc Mechanical Power — Ain Shams (2019-2024) — GPA 2.85. Technical: AutoCAD (2D), Inventor (3D), ANSYS (FEA), MATLAB, Problem Solving. Internships: National Authority for Tunnels (HVAC), Arab Contractors (IC engines). Grad Projects: Pitch System Control, Solar Cell Cooling System (15% efficiency).
